

*“Spring is April’s way of saying, Let’s, Bloom”*

Thank you all for being so patient with us last month as we had a very busy month with the installation of our new carpet in our main areas. Thank you for being so accommodating and understanding of the construction through it all. Your loved ones did great through the process as well and we are so excited for the new look it brings, and the new changes being made little by little to our facility and your loved one’s home.

We want to send a congratulations on the new bundle of joy for one of our own Shelby Berry and her family as they welcomed her son into the world on March 6<sup>th</sup> Wesley Traver.

If any of you would like to volunteer to come in and do an activity or send an activity for the residents to do, they would absolutely love it! Please contact me so we can get it on a schedule! We are always looking for more fun things to do to stay busy.

We are so excited for all this warm weather we have been blessed with and some of your loved ones have made an escape and already sat outside for a little while. We are so excited for more of this weather so we can all go out and enjoy it.
